Jawatan Pengerusi dan Ketua Pegawai Eksekutif

Jawatan Pengerusi dan Ketua Pegawai Eksekutif adalah berasingan dan diisi oleh dua individu yang berlainan. Pengasingan fungsi dan tanggungjawab bagi kedua-dua jawatan tersebut adalah bagi memastikan keseimbangan kuasa dan autoriti serta kuasa tidak tertumpu pada seorang sahaja. In exercising this task, the Minister appoints only those who have proven track record of integrity, ability and reliability to undertake the obligations with utmost diligence. Appointments are for a period of two years, the Minister of Finance will review the attributes and core competencies of the Board and Panel members and evaluate their performance individually and as a whole.

Composition of the Board and Investment Panel

There are 18 members sitting on the Board of EPF, all with non-executive powers except the Chief Executive Officer. Beside the Chairman and Chief Executive Officer, the Board's composition has representations from its stakeholders, that is, four employees' representatives, four employers' representatives and five representing the Government. To add credence and independence to the Board as well as to give the necessary professional advice, three Board members from the business, finance and economics background had been included.

The functions and the division of responsibilities were separated to ensure balance of power and authority, so that there will not be concentration of power in one person. Whilst the Board assumes the overall responsibility to lead and control the organisation, the day to day operations is the responsibility of the Chief Executive Officer and Senior Management.

THE BOARD AND INVESTMENT PANEL MEETINGS

The Board meets bimonthly to deliberate, review, evaluate policies and strategies, and monitor the performance of the Management. For the year 2006, the Board had held eight meetings. STATEMENT ON CORPORATE GOVERNANCE

KEBERTANGGUNGJAWABAN DAN PENG AUDITAN

KWSP sebagai sebuah badan berkanun adalah dikehendaki untuk mengemukakan akaunnya kepada Pejabat Ketua Audit Negara bagi tujuan pengauditan setiap tahun sebelum dibentangkan di Parlimen. Lembaga juga menentukan rekod perakaunan dinyatakan dengan ketepatan yang berpatutan mengenai kedudukan kewangan organisasi untuk memberi pandangan berhubung status KWSP setakat akhir tahun kewangan yang benar dan saksama berdasarkan standard perakaunan yang diguna pakai.

Berhubung dengan kawalan dalaman, Lembaga telah mengambil langkah-langkah yang perlu untuk mengelak dan mengesan penipuan dan penyelewengan. Antaranya ialah pewujudan Jabatan Pengurusan Risiko bertujuan membantu Pengurusan melaksanakan sistem kawalan dalaman yang berkesan. Pada masa yang sama, ia juga telah menyediakan rangka kerja tadbir urus risiko untuk membolehkan Pengurusan memantau fungsi-fungsi yang kritikal serta mengesan dan mengurangkan risiko yang terlibat untuk melaksanakan fungsi tersebut. Di peringkat ini, Lembaga berpendapat bahawa kawalan dalaman yang telah diwujudkan di KWSP adalah mantap dan berkesan. Bagaimanapun, kajian semula semua prosedur kawalannya akan diteruskan bagi memastikan keberkesanannya dan kesempurnaan sistem yang sedia ada.

ACCOUNTABILITY AND AUDIT

As a Statutory Body, the EPF is required to submit its accounts to be audited by the Auditor General's Office every year before it is tabled at the Parliament for adoption. The Board had taken appropriate steps to present a clear and balanced assessment of its consolidated financial position through the annual financial statements in the Annual Report. The Board also ensures that the accounting records disclosed with reasonable accuracy on the financial position of the organisation to give a true and fair view of the state of affairs of EPF at the end of the financial year based on applicable accounting standards.

In connection with internal controls, the Board took necessary steps to prevent and detect fraud and other irregularities in order to safeguard its assets. Among them were the establishment of a Risk Management Department to assist the Management in its effective implementation of an internal control system, providing a management framework and monitoring of critical areas, which is designed to identify and mitigate risks. At this juncture, the Board is of the view that the systems of internal controls being instituted throughout the organisation are sound and effective. Notwithstanding this, reviews of all control procedures will be continuously carried out to ensure the ongoing effectiveness and adequacy of the system.

PERNYATAAN KAWALAN DALAMAN STATEMENT ON INTERNAL CONTROL

TANGGUNGJAWAB

Tujuan sistem kawalan dalaman KWSP bukanlah untuk menghapus risiko sebaliknya adalah untuk mengurus risiko berkaitan dengan pencapaian polisi dan matlamat organisasi. Oleh itu, sistem kawalan dalaman hanya dapat memberikan jaminan keberkesanan organisasi yang munasabah dan bukan secara mutlak.

It can, therefore, only provide reasonable and not absolute assurance of effectiveness.

INVESTMENT RISK MANAGEMENT FRAMEWORK

While there exist policies, procedures and limits that govern the investment process, the Management and Investment Panel recognised the need for a more comprehensive investment risk management framework, that is, in line with standards in the financial industry. In 2004, the EPF had appointed a consultant to assist the Risk Management Department in the development of such a framework, with emphasis on market and credit risk. The investment risk framework outlines recommendations for a risk governance structure, risk measurement and risk capital allocation methodologies, and risk policies, processes and limits. The implementation of the framework was completed in June 2006.

Pernyataan tahap risiko yang boleh diterima yang diluluskan oleh Panel Pelaburan secara umumnya menggariskan tahap risiko yang boleh diterima oleh KWSP dan ini menjadi asas bagi pendekatan peruntukan dana yang diterima pakai oleh KWSP. Pernyataan ini juga menjadi garis panduan bagi mentadbir batasan risiko yang ditetepkan bagi semua peruntukan pelaburan.

Jawatankuasa Risiko Panel Pelaburan telah mewujudkan beberapa polisi dan had bagi memastikan penetapan tahap risiko yang berpatutan bagi setiap peruntukan pelaburan. Selain itu, bagi mengukuhkan pengukuran risiko bersistematis, Sistem Pengurusan Risiko Pasaran dan Model Portfolio Kredit telah diadakan.

Panel Pelaburan menerusi Jawatankuasa Risiko Panel Pelaburan mengkaji semula dari semasa ke semasa pengukuran risiko dan kaedah peruntukan model risiko, polisi-polisi yang berkaitan dengan risiko serta semua proses dan had bagi memastikan keberkesanan yang berterusan.

Penyataan ini adalah dibuat berdasarkan resolusi semua ahli Panel Pelaburan bertarikh 19 Mac 2007.

The investment risk governance structure was enhanced with the formation of an Investment Panel Risk Committee comprising three members from the Investment Panel. This committee of the Investment Panel is responsible for overseeing risk management in making EPF's investment decisions. A Management Risk Committee, chaired by the CEO, is responsible for administering the day-to-day risk management activities and assists the Investment Panel Risk Committee. There is also a dedicated Investment Risk Management Division, within the Risk Management Department, that provides independent measurement, monitoring and reporting of EPF's investment risk exposures for the review of Management and the Investment Panel Risk Committee.

The Risk Appetite Statements approved by the Investment Panel, broadly outline the level of risks that EPF is willing to tolerate and form the basis for the top-down funds allocation approach adopted by EPF. The statements also governs the risk limits set for various asset classes.

The Investment Panel Risk Committee has put in place various policies and limits to ensure the appropriate amount of risks are assigned to each asset class. To complement the policies and limits, Market risks Management System and a Credit Portfolio Model are installed to ensure the risks are systematically measured.

The Investment Panel through the Investment Panel Risk Committee regularly reviews the risk measurement and risk capital allocation methodologies, risk policies, processes and limits to ensure their continued effectiveness.

CONCLUSION

The Investment Panel is assured that the investment risk management practices in place within EPF are sound and sufficient to safeguard the investments of the EPF. The Investment Panel's review of the effectiveness of the investment risk management framework is supported by the Investment Panel Risk Committee, which meets at the minimum four times a year and reviews risk and compliance reports from the Investment Risk Section.
