LEMBAGA PEMBANGUNAN PERUMAHAN DAN BANDAR
(*Housing and Town Development Authority*)

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014

1. PRINCIPAL ACTIVITIES

The Authority is a State-owned agency and is governed by the Housing and Town Development Authority Enactment, 1981. The principal activities of the Authority are to develop low cost housing and township projects. There has been no significant change in the nature of these activities during the financial year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies are adopted by the Authority and are consistent with those adopted in previous years.

(a) *Basis of accounting*

The financial statements of the Authority are prepared on the historical cost basis and in compliance with applicable approved accounting standards in Malaysia.

(b) *Property, plant and equipment*

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and impairment losses, if any.

(c) *Depreciation*

The straight line method is used to write off the cost of the following assets over the term of their estimated useful lives at the following principal annual rates:

Long term leasehold land	over 50 years
Buildings	2%
Motor vehicles	20%
Office furniture, fittings and equipment	10% - 20%
Renovation	10%
Computer Software	20%

(d) *Impairment*

The carrying amounts of the Authority's assets, other than inventories and financial assets (other than investments in subsidiaries), are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or the cash-generating unit to which it belongs exceeds its recoverable amount. Impairment losses are recognised in the income statement, unless the asset is carried at a revalued amount, in which case the impairment loss is charged to equity.

LEMBAGA PEMBANGUNAN PERUMAHAN DAN BANDAR
(Housing and Town Development Authority)

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014 - (cont.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont.)

The recoverable amount is the greater of the asset's net selling price and its value in use. In assessing value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss in respect of goodwill is not reversed unless the loss was caused by a specific external event of an exceptional nature that is not expected to recur and subsequent external events have occurred that reverse the effect of that event.

In respect of other assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. The reversal is recognised in the income statement, unless it reverses an impairment loss on a revalued asset, in which case it is taken to equity.

(e) *Development properties*

Land and development expenditure whereby significant development work has been undertaken and is expected to be completed within the normal operating cycle are classified as development properties. Development properties are stated at cost plus attributable profits less foreseeable losses, net of progress billings. Cost includes cost of land, all direct building cost, and other related development expenditure incurred during the period of development.

(f) *Inventories of unsold houses*

Inventories of unsold houses are stated at the lower of cost and net realisable value. Costs include apportioned land cost and development expenditure incurred.

(g) *Revenue*

(i) *Property development*

Profit from property development is recognised using the percentage of completion method. Where foreseeable losses are anticipated, full provision for these losses is made in the financial statements.

LEMBAGA PEMBANGUNAN PERUMAHAN DAN BANDAR
(Housing and Town Development Authority)

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014 - (cont.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont.)

(ii) *Developed properties*

Profit on developed properties is recognised when transfer of risks and rewards has been completed.

(iii) *Privatised projects*

Profit on privatised projects is recognised on an accrual basis based on stipulated fixed schedule.

(iv) *Rental income*

Rental income is recognised on an accrual basis.

(v) *Interest income*

Interest income is recognised in the income statement as it accrues, taking into account the effective yield on the asset.

(vi) *Dividend Income*

Dividend income is recognised when the right to receive payment is established.

(h) *Interest on borrowings*

Interest on borrowings is charged against income and no part of the interest is treated as an inherent part of the total cost of property development.

(i) *Provisions*

A provision is recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation (legal or constructive) as a result of a past event and a reliable estimate can be made of the amount.

(i) *Provision for repairs and maintenance on completed projects*

Provision for repairs and maintenance is made at 5% of cost for low cost housing projects and 3% for all other projects upon their completion.

(j) *Employee benefits*

(i) *Short term benefits*

Wages, salaries, paid leave and sick leave, bonus and non-monetary benefits are recognised in the year in which associated services are rendered by employees of the Authority.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (*cont.*)

(ii) *Defined contribution plans*

Obligations for contributions to defined contribution plans are recognised as an expense in the income statement as incurred. Other retirement benefits are charged against income as and when paid.

(k) *Government trust funds*

Grants and Trust Funds received from the Federal and State Governments for the development of specific projects are utilised to meet the cost of developing those projects. At the completion of the project, any excess Trust Fund is refundable to the respective governments, while shortfalls are to be recovered and shown as a debit balance in the respective fund.

(l) *Investments*

Long term investments in subsidiaries are stated at cost in the Authority, less impairment loss where applicable.

(m) *Taxation*

Tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

(n) *Cash and cash equivalents*

Cash and cash equivalents consist of cash on hand, balances and deposits with banks. For the purpose of the cash flow statement, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014 - (*cont.*)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (*cont.*)

(o) *Receivables*

Receivables are carried at anticipated realisable value. Bad debts are duly written off. An estimate is made for doubtful debts based on a review of all outstanding amounts at the year end.

(p) *Payables*

Payables are stated at cost which is the fair value of the consideration to be paid in the future for goods and services rendered.

LEMBAGA PEMBANGUNAN PERUMAHAN DAN BANDAR
(*Housing and Town Development Authority*)
AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014

1. PRINCIPAL ACTIVITIES

The Authority is a State-owned agency and is governed by the Housing and Town Development Authority Enactment, 1981. The principal activities of the Authority are to develop low cost housing and township projects, whilst the principal activities of the subsidiaries are stated in Note 4. There has been no significant change in the nature of these activities during the financial year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies are adopted by the Group and the Authority and are consistent with those adopted in previous years.

(a) *Basis of accounting*

The financial statements of the Group and the Authority are prepared on the historical cost basis and in compliance with applicable approved accounting standards in Malaysia.

(b) *Basis of consolidation*

Subsidiaries are those enterprise controlled by the Authority. Control exists when the authority has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases. Subsidiaries are consolidated using the acquisition method of accounting.

Under the acquisition method of accounting, the results of subsidiaries acquired or disposed of during the year are included from the date of acquisition or up to the date of disposal. At the date of acquisition, the fair values of the subsidiaries' net assets are determined and these values are reflected in the Group financial statements. The difference between acquisition cost and the fair value of the subsidiaries' net assets is reflected as goodwill or negative goodwill as appropriate.

Intragroup transactions and balances and the result unrealised profits are eliminated on consolidation. Unrealised losses resulting from intragroup transactions are also eliminated unless cost cannot be recovered.

(c) *Property, plant and equipment*

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and impairment losses, if any.

The Group revalues its property comprising land and building every 5 years and at shorter intervals whenever the fair value of the revalued assets is expected to differ materially from their carrying value.

(Housing and Town Development Authority)
AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014 - *(cont.)*

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - *(cont.)*

Surpluses arising from revaluation are dealt with in the property revaluation reserve account. Any deficit arising is offset against the revaluation reserve to the extent of a previous increase for the same property. In all other cases, a decrease in carrying amount is charged to the income statement.

Property, plant and equipment retired from active use and held for disposal are stated at the carrying amount at the date when the asset is retired from active use, less impairment losses, if any.

(d) Depreciation

The straight line method is used to write-off the cost of the following assets over the term of their estimated useful lives at the following principal annual rates:

Long term leasehold land	over 50 years
Buildings	2%
Motor vehicles	20%
Plant and machinery	20%
Office furniture, fittings and equipment	10% - 20%
Renovation	10%
Computer Software	20%

A long term leasehold land of the Group with an unexpired lease period of 75 years at year end is not amortised. The non-amortisation does not have a material effect on the financial statements.

(e) Impairment

The carrying amounts of the Group's assets, other than inventories and financial assets (other than investments in subsidiaries), are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or the cash-generating unit to which it belongs exceeds its recoverable amount. Impairment losses are recognised in the income statement, unless the asset is carried at a revalued amount, in which case the impairment loss is charged to equity.

The recoverable amount is the greater of the asset's net selling price and its value in use. In assessing value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

(Housing and Town Development Authority)
AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014 - (cont.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont.)

An impairment loss in respect of goodwill is not reversed unless the loss was caused by a specific external event of an exceptional nature that is not expected to recur and subsequent external events have occurred that reverse the effect of that event.

In respect of other assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. The reversal is recognised in the income statement, unless it reverses an impairment loss on a revalued asset, in which case it is taken to equity.

(f) *Investment properties*

Investment properties are treated as long term investments and are stated at cost. An allowance is made when the directors are of the view that there is a diminution in their value which is other than temporary.

(g) *Development properties*

Land and development expenditure whereby significant development work has been undertaken and is expected to be completed within the normal operating cycle are classified as development properties. Development properties are stated at cost plus attributable profits less foreseeable losses, net of progress billings. Cost includes cost of land, all direct building cost, and other related development expenditure incurred during the period of development.

(h) *Inventories of unsold houses*

Inventories of unsold houses are stated at the lower of cost and net realisable value. Costs include apportioned land cost and development expenditure incurred.

(i) *Revenue*

(i) *Property development*

Profit from property development is recognised using the percentage of completion method. Where foreseeable losses are anticipated, full provision for these losses is made in the financial statements.

Profit from property development undertaken by another developer on the Group's and Authority's land is recognised using the percentage of completion method determined on the proportion of value of development units sold against total saleable value and is calculated based on the Group's and Authority's entitlement on properties sold by the developer.

(v) *Rental income and net insurance commission*

(m) *Government trust funds*

Grants and Trust Funds received from the Federal and State Governments for the development of specific projects are utilised to meet the cost of developing those projects. At the completion of the project, any excess Trust Fund is refundable to the respective governments, while shortfalls are to be recovered and shown as a debit balance in the respective fund.

(n) *Investments*

Long term investments in subsidiaries are stated at cost in the Authority, less impairment loss where applicable.

(o) *Income tax*

Tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

NOTES TO THE FINANCIAL STATEMENTS - 31ST DECEMBER, 2014 - (cont.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (cont.)

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

(p) *Cash and cash equivalents*

Cash and cash equivalents consist of cash on hand, balances and deposits with banks. For the purpose of the cash flow statement, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

(q) *Land held for property development*

Land held for property development consist of land or such portions thereof on which no development activities have been carried out or where development activities are not expected to be completed within the Company's normal operating cycle of 2 to 3 years. Such land is classified as non-current asset and is stated at cost less accumulated impairment losses.

Land held for property development is reclassified as property development costs at the point when development activities have commenced and where it can be demonstrated that the development activities can be within the Company's normal operating cycle of 2 to 3 years.

(r) *Hire purchase liabilities*
